STRAP-ON HALO

Strap-On Halo

Lyrics by Andy Christ

To Deceive

Deceiving is just a word · Being deceiving is an action · You may know this that is true · But do you say or do you do? · I see the light · Deceiving can be done by saying or doing, either one · But they're most effective when both of these are done

100 Feet

See him stand now · See him fall down · See him hanging on your wall · You're dead, you're dead · Pray · Close my door · Turn out the lights · Jump into bed
Close my eyes tight · And the walls start talking to me · Foonu channy ticki chi · Creeps of dark · Dirty souls · The blood cleans us tonight · Fallen angels drop like flies · I'm gonna hold on tight! · Four in the morning in downtown Long Beach · Working the graveyard!

Robots Don't Bend

You and I have been locked in · Everyone else has already been programmed · Every step we take they stand in front of us · Robots don't bend their ways they just · Get in the way! · So we have to remember it has no gender · So we have to remember robots don't · Your minds are as crooked as your torsos · You're a robot that only moves at the waist · When your teeth gnaw on the cage it's gotta hurt · It looks so painful but it's the sound that's the worst · So we have to remember · Robots don't bend · Praise Jesus you're dead · All these people make me nervous

Hi, I'm Exactly The Kind Of Guy Who Shouldn't Carry A Gun

When every little thing is full of crap · All you need is more · Taste the lead particles · You're a scarecrow now · The bullet speaks from me through you · Not unlike your priest used to · Liars make better lovers · Lovers make better users · And users make bad friends · Falling down on your back · Eyes wide open · I know you'll thank me latter · I've got some thanks for you · The hole in your heart · The hole in your heart · I've got some thanks for you · Bye, bye my friend · Now that I've had my way · Some parts are stiffer than others · When every little thing is full of crap · All you need is more, I'll give you more · Once a tormented face · Now my smile grows wider · The bullet speaks from me through you · Not unlike your priest used to

Reject

She will do what it takes to be left alone · Even if it means something she'll regret · Because she can't take one more second with you · (Can't take the pain)
Tonight they stabbed you in the back it's alright · My back has scars too · It reads like a road map · Full of alleys and full of crap · Full of alleys and full of crap
They stabbed you in the back · And that is a fact · (Violence erupts) · I will do what it takes to be left alone · Even if it means something she'll regret · Because I can't take one more second with you · You seduced me in the rain · And you took my hand and said · That you promised that you loved me · But now I have four
Flat tires later · You took my heart and now · You broke it all apart · I will survive

I Had A Girl

I had a girl that did me good · I had a girl that understood · But I fucked up · So now I have a girl that gives me all I want · But what I want she doesn't have I fucked up · Feel so big · Feel so small · Feel so big · When will it stop · (Julie was a bad girl · She was a bad girl) · Everyday is the same for me
All I do is hurt, need and die · So why am I the only one · When it's so easy · Dying to live, my struggle for living I die · Cause what's freedom when you're nailed to the 100 foot high cross? · I don't know

4th Of Julie

Something happened on the 4th of July · I saw my girlfriend and I said goodbye · Said goodbye let her die · Let her die in my mind · The only real thing about you is you're fake · Do I see more than this? · Go away before I piss · Standing on the verge · Now you run home sick fuck · How does it feel? You haven't seen nothing yet · You're looking nice now · Don't stop for me · Devils are real · Now that I've had my way · Four parts are better than one You lost your mind · You lost it when you lost control · The next time she wants me to hear her lies · All she'll be hearing is a laugh · Cause now I just fuck It doesn't have to be quick · To be meaningless · So now I just fuck · Why did I think you were for me? · I thought you could set me free · Take away, stand still As if no one around · Except you my love · If only it lasted · Except you my love · I want to be set free!

I Want To Be A T.V. Evangelist

The love is gone my blood runs thick · The soul is so heavy · I'm feeling sick · You lost your love · My heart goes limp · I'm growing tired I'm feeling sick · No I feel sick · No I feel sick · Just like a fly on the wall · So I can fly away when I want · When the apple was bit · It was this fly that finished it My nails get shorter my nerves get severed · The love is gone I'm feeling sick · My anger grows deeper, 100 ft. deeper · It permeates the oxygen I'm feeling sick · No I feel sick · No I feel sick

What Is Your Name?

What is your name? · What is your name? · I know what they used to call you but you're much different now · What is your name? · What is your name? My screen is busted and the window wont shut · I'm seven floors up I'm seven floors up, and I heard a scream · Who broke my screen? · What is your name? What is your name? · I know what they used to call you but you're much different now · My screen is busted and the window wont shut · I'm seven floors up I'm seven floors up and I heard a scream · I guess, I guess, I guess they call you dead · Fly x 7

100 Feet Deeper

See him stand now · See him fall down · See him hanging on your wall · You're dead! · You're dead! · Praise Jesus you're dead! · Hooray! · It doesn't really matter how hard you try · It doesn't make a difference just how you die · You do a little medicine to calm you down · Hope the father in the sky don't wear a frown · And you don't know the difference between the holy ghost · Or the angels in the sky · Or the demons below · Everyday is the same for me · All I do is hurt, need and die So why am I the only one · When it's so easy · Dying to live, my struggle for living I die · Cause what's freedom when you're nailed to the 100 ft. high cross · I don't know

To this world,

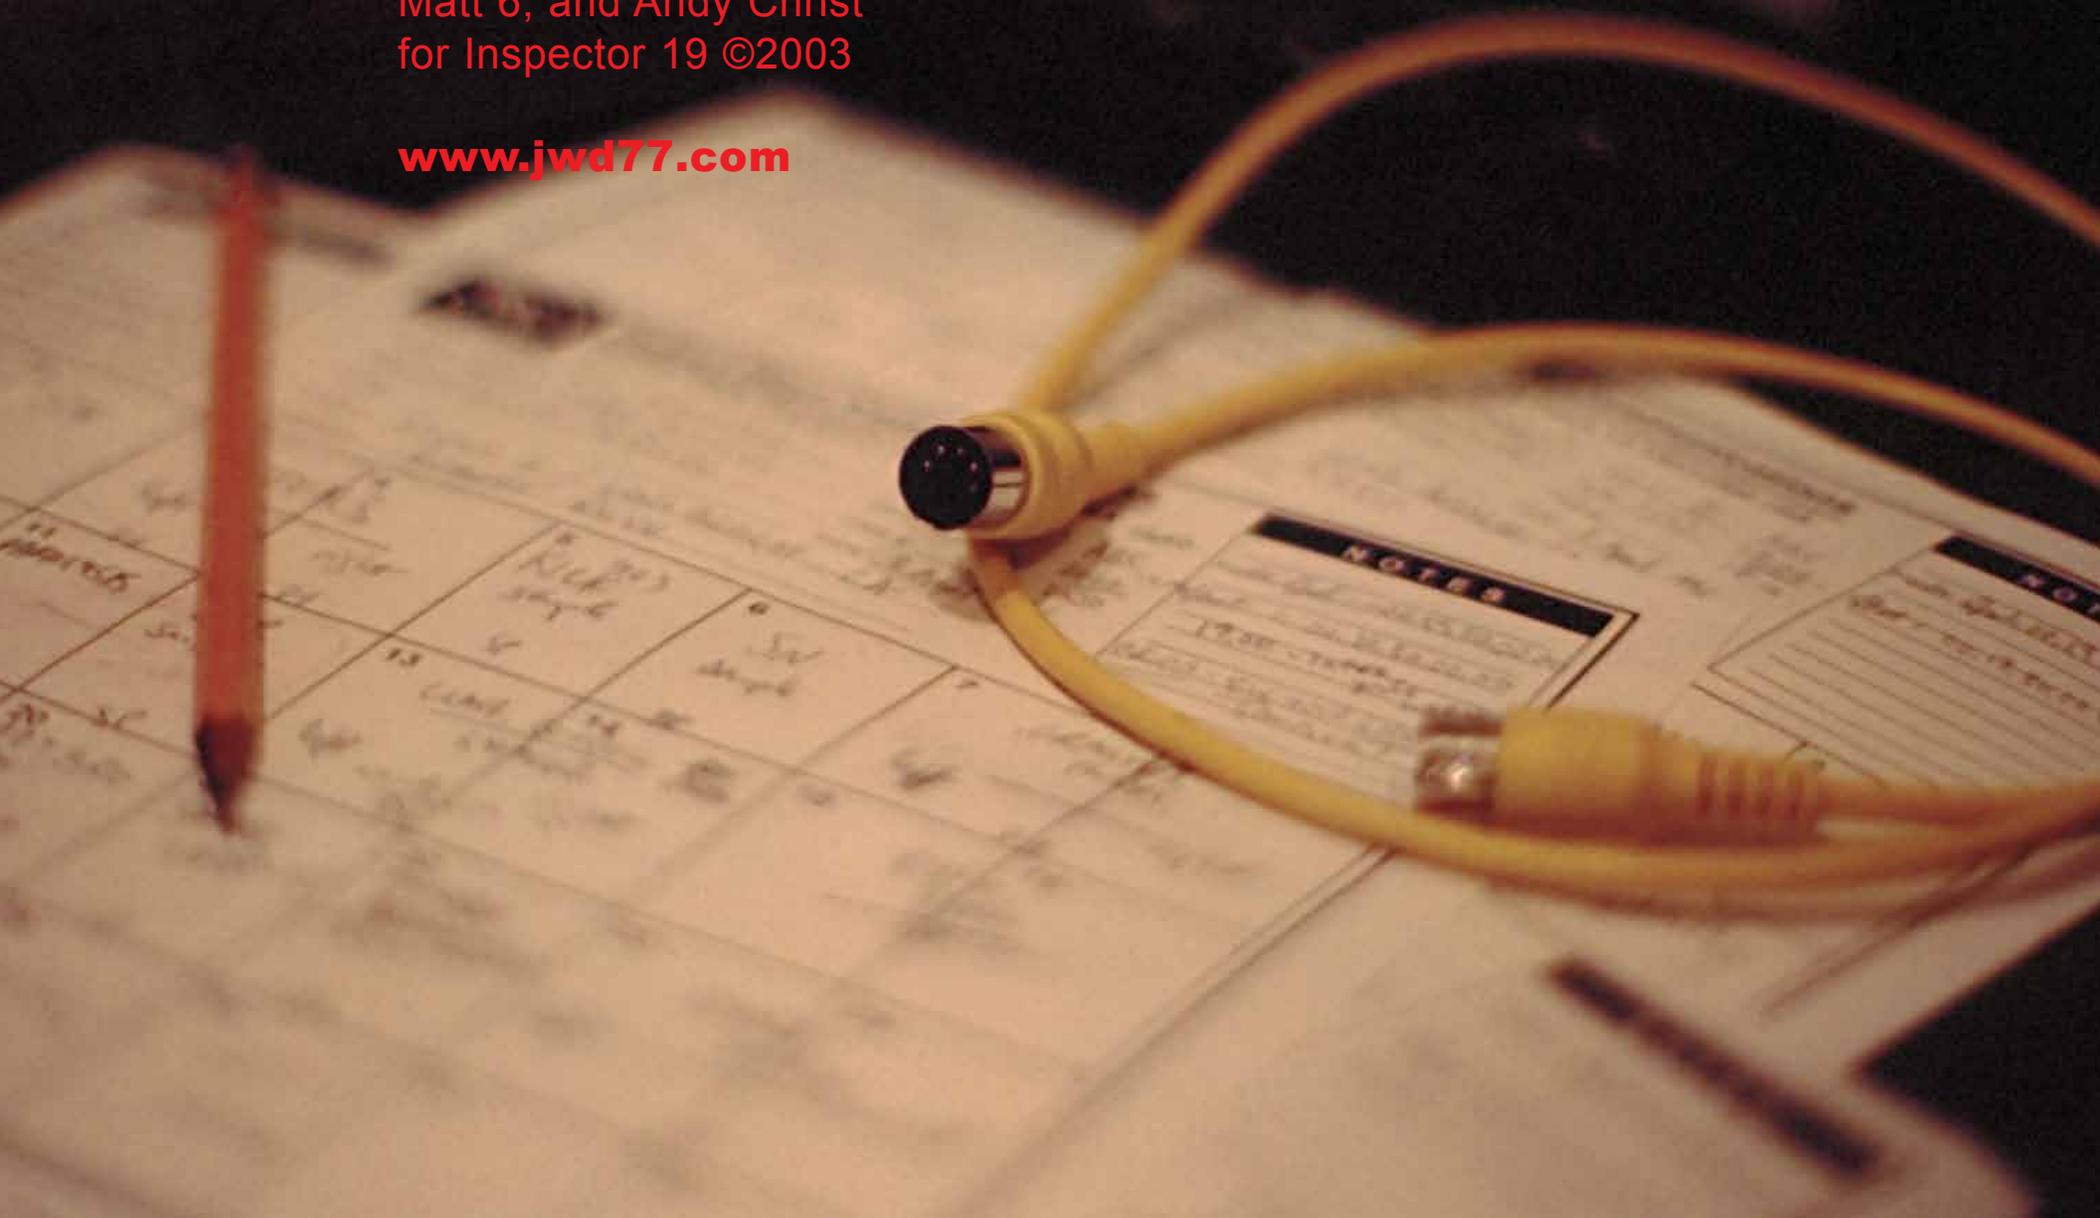

I leave knowing that I brought a little more peace and goodwill to you. I leave my records to Mike, and my books to Barbara, and that's all I have left.

He puts it on · Girl's underwear and a gun · Nothing can stop him from · His final thrill · To end it all · End it all · You're dead!
